WebbSecured - CMMC Level 2 Assessment Assistance

Overview

WebbSecured provides comprehensive support for organizations preparing for a CMMC Level 2 assessment. CMMC Level 2 includes 110 practices aligned with NIST SP 800-171 to protect Controlled Unclassified Information (CUI). Achieving Level 2 compliance is essential for contractors handling sensitive defense information.

Our Services

- Full NIST SP 800-171 Control Gap Analysis

- System Security Plan (SSP) and Plan of Action & Milestones (POA&M) development

- PreVeil and cloud-based CUI protection support

- Evidence collection and validation

- Mock Assessments based on DIBCAC methodology

- Remediation guidance and technical control implementation

- Policy, procedure, and documentation templates

Key Benefits

- Expert-led readiness with focus on DIBCAC expectations

- Reduced risk of assessment failure

- Guidance tailored to small and mid-size defense contractors

- Support for organizations using PreVeil, Google Workspace, and Bitdefender
